DETAILED ACTION

Double Patenting

1. The statutory double patenting rejection in the previous office action is hereby withdrawn. The evidence submitted by the applicant (see pages 13-15 of applicant's remarks filed 6/27/06) is sufficient to show that application 10/781,721 (US PGPUB No. 20040230734), which was used in the double patenting rejection, was published with an incorrect disclosure (i.e. specification, claims, abstract).

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims

At claim 1, line 11, replace the phrase "waits completion" with "waits for completion".

At claim 13, line 10, replace the phrase "waiting completion" with "waiting for completion".

Examiner's Remarks

The Examiner's amendment above was made to improve the grammar and readability of the claim and is purely non-substantive.

Allowable Subject Matter

3. Claims 1,3-9,13, and 15-20 are allowed.
4. The following is an examiner's statement of reasons for allowance: The applicant's amendment and remarks filed 6/27/06 have been fully considered. The remarks (see pages 9-11 of applicant's remarks) are found to be persuasive, thus the prior art rejections have been withdrawn.

Conclusion

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
